In making this increase your Com-missioners have given the matter care-ful consideration and find that, because of the excessive increase of the cost of all material entering into the manu-facture of rate, it has been found neces-sary to raise the price of gas to the above named rates.

No change is being made in the elec-tric lightling rate, with the exception that the minimum charge, will after Aug. 1, 1920, be II per month or frac-tion thereof.

GET YOUR ICE CREAM at BINNEY'S, 20 Town St., at 70 cents a quart. Flour \$2.10 per bag.

FOUR FIRE CALLS ON THE FOURTH

Fireworks caused four fires in the city on Monday, but all were extinguished with only very slight damage. The first fire occurred early in the day, the second about 3 o'clock and the other two happened simultaneously shortly before midnight. There was slight confusion at the last two fires owing to the fact that whoever called up the Central station did not speak distinctly and the fireman who answered the phone understood the party to say that the fire was at Ferry street instead of Fourth street.

The fire started from a firecracker thrown on to the awning by a boy. One tank of check all was used.

Early in the day in department was called to \$1 Fountain street for a blaze on the roof. The fire was put out before the department arrived and the people in the house told the firemen they called because they wanted to be sure the blaze was out.

Total Damage Small.

The total damage one by all four fires

Instead of Fourth street.

The department made a quick run to Ferry street but could not discover anything and were just about to go back to the station when a bell alarm from box 14 sounded. A quick response was made to this call and just after arriving the department were told of the fire at the corner of Fourth and Prosnect streets. Chemical company No. 2, the chief and denuty chief made the run to Greeneville.

The fire on the West Side was at 28 Thames street in the house occupied by R. Rosenburg. A skyrocket had landed on the roof earlier in the evening and had been smoldering until the roof eaught fire. Several tanks of chemical were used to extinguish the blaze.

The Total Damage Small.

The total damage jone by all four fires will amount to only a few dollars. The department was on the alert all day Monday for a man being allowed to leave his post during the day. For the past few days Chief Stanton has been at the Central station practically every minute in case of an emergency.

Chief Stanton said Monday evening that the city was nicky to get off with so little damage, as there was more or less recklessness regarding fireworks. Chief Stanton also said that if people would take great care in making clear the location of the fire when an alarm was telephoned in it would save considerable delay and confusion.

stinguish the blaze. The fire in Greeneville was at 138

Prospect street in the house owned by Another fire occurred shortly before 1 o'clock this (Tuesday) morning just 28 Kennedy. This blaze was on the roof and the firemen were getting to sleep after was caused by a skyrocket. Two tanks of chemical were used to put out the fire was in the shed of Renben Shapiro
